To Whom It May Concern:

It is with great excitement I offer an invitation to you to be a part of something very special in Indiana communities.

Imagine for a moment a **WORLD** where Kids are **connected** with one another; where they are practicing acts of **compassion**; where they are learning sound **character values** and **healthy lifestyles**; practicing **fitness**; and developing **life-skills**.

KidsGames facilitates active participation of youth in all sectors of local communities through a blend of the ceremonies and competitions of a sports festival coupled with fellowship and values based lessons and activities. Government entities, educational institutions, faith-based organizations and businesses are participating in a joint effort to communicate with one another; share the resources they develop; and plan how KidsGames can be sustained where it exists, and replicated in other cities throughout the state, country and world.

We are accepting donations for additional funding, as well as goods "in-kind." There are numerous activities and experiences that we would like to provide for our campers. However, we must obtain additional funding in order to provide these wonderful experiences. We also need many different types of goods provided to our participants, including t-shirts, water bottles, back packs, sporting goods, or anything else that might be useful to our camp. Please bear in mind that many of our underprivileged campers are simply unable to provide all of these resources themselves and will depend on the generosity of the community to help them participate. Finally, we are in need of local people who can bring media attention to our program and inspiration to our campers. If you know anyone who might fit this description, please consider passing along this information to him or her. The Central Organizing Committee for Indianapolis KidsGames would like to thank you for your consideration.

It is a program that, through sport and collaboration, gives people a way to make a dramatic difference in their own communities. It brings together youth and volunteering adults from all walks of life to participate in a fun and exciting sports program with a values based curriculum.

Please visit www.kidsgamesindianapolis.com to find out more about KidsGames. I am looking forward to hearing from you and answer any questions you may have regarding Indianapolis KidsGames 2008.

Sincerely,

Megan W. Schmidt
